U.S. Building Permits MoM

Haawks ID: | Symbol: USDJPY | Importance: ** | Positive Deviation: bullish

Description:

Building Permits is a report closely watched by economists and investors alike. Since all related factors associated with the construction of a building are important economic activities (for example, financing and employment), the building permit report can give a major hint as to the state of the economy in the near future. A higher than expected number should be taken as positive to the USD, while a lower than expected number as negative.

Note:

The data below was calculated using historic news & tick data of 76 releases from 2017-01-19 to 2023-02-16.

It combines the data from releases with positive deviations and releases with negative deviations. For the releases with negative deviations, the pip movements were multiplied by -1 to conform with the data from positive deviations. If a higher deviation is bullish for the trading symbol, a positive number signifies movement in the expected direction and a negative number signifies movement in the opposite direction. If a higher deviation is bearish then the opposite is true.

Key:

| Name | Meaning |
|---------------------------|---|
| Time Delta | The amount of time elapsed after the news release |
| Range | The range of the pip movements |
| Mean | The mean average of the pip movements for all releases for each trigger |
| Median | The median average of the pip movements of all releases for each trigger |
| Correlation 1 Score (c_1) | Percentage of how many times the asset moved in the expected direction |
| Correlation 2 Score (c_2) | Percentage of pips which moved in the expected direction vs. the opposite direction |
| Correlation 3 Score (c_3) | The mean average of the Correlation 1 & 2 scores |

Trigger 1: +-0.8%
